GMEC 2024

Global Medical Exhibition & Conferences 2024 (GMEC 2024) is an ideal platform where National & International Medical Equipment Manufacturers, Bio Medical Instrument, Rehabilitation Products & Aids, Medical furniture, Ambulance, Hospital Garments, 3D Printers, C.T. Scan, Suctions & Fusion Pumps, components for Medical & Equipment, Software, Distributors & Dealers and service provider come together to showcase and explore the latest advances in the Medical Technology.

The Participation in **GMEC 2024** Medical Exhibition is a must, which will give very good result and definitely add the value of your products and services through B2B, B2C.

Conferences have become an integral part of the Exhibition on varied medical-technological topics concisely presented to enlighten the innovative products and services to the end users.

Why at Bengaluru?

Bengaluru is a mega city, capital city of Karnataka state, silicon valley of India, hub for head quarters, specialized medical hospitals, health care and Rehabilitation centers. **GMEC 2024** Team of Professionals justified and found that **Bengaluru** is very suitable and ideal place for health care Exhibition at this point of time. Government of Karnataka taken initiative and justify that Bengaluru is the hub for healthcare startups and encouraging the Exhibitions.

Why are more healthcare startups taking shape in Bengaluru Compared to other cities in India?

Quality Healthcare can be delivered efficiently in cost effective manner across the country even to the remote areas with such a big population is not a big challenge but a huge opportunity. The answer lies in the fact that Bengaluru is already famous as the world's back office due to the huge presence of IT companies for years now, which gives it a technological edge and also the presence of the big number of techies around the city from various parts of the country and world give it a real cosmopolitan look, where in people are always willing to experiment with new things which would make their life better.
